Threading

Threading is a form of hair removal using only a piece of thread. It originates from South Asia and is used for precise hairs on small areas such as the eyebrows, for that smooth defined shape. It is also used for very fine blonde hair which appears on facial areas. If you have a sensitive skin this is brilliant as it uses no chemicals or creams.

Lash Perfect Eyelash Extensions

Using Lash Perfect eyelash extensions, your therapist uses individual hair to build up a full set of eyelashes. The beauty of Lash Perfect eyelashes is you can choose how long and how full you would like them, to achieve your individual desired effect. As your natural lashes shed the extensions fall out so infills are advised every 2-3 weeks to keep your lashes looking fabulous. It is also advised to have the extensions professionally removed to avoid damage to your natural lashes. (Patch test is required 48 hours prior to eyelash application.)
